

EXPOFLOOR

WE RAISE YOUR BUSINESS

Flexible raised floors for trade fairs, events and brand activation!

ExpoFloor;

- the flexible solution for stand presentations, events and brand activation!
- a unique cost & time saving solution!
- an ecofriendly choice!

The Live Communication industry is fast, demanding and time consuming. A short build-up and pull-out time for every fair or event puts everyone on edge. ExpoFloor was created because we found a solution for companies that want to realize temporary commercial presentations in a short time, of good quality and in several places at the same time without too much lost time at once.

ExpoFloor offers you the option to choose professional raised floor solutions "for hire". You do not have to make heavy investments yourself, which afterwards often also do not achieve the desired return on investment due to a too low turnover rate. And that is not even the biggest problem. Also think of storage, maintenance, providing experienced people who efficiently install and dismantle the floors, but also think of lost time during build-up and pull-out as well as transport costs.

Hire a raised floor is therefore the only smart choice. and the best solution for all logistical and financial dilemmas. ExpoFloor can help you with this. We have large, well-maintained stocks, experienced people who

are used to install the floor system quickly. You do not have to build up stock or to invest yourself. In short, a win-win situation..

Do not hesitate anymore and book what you need, because ExpoFloor guarantees you the right price-quality ratio for every project.

Floors for hire = environmentally friendly

ExpoFloor considers the "**cradle to cradle**" principle of great importance. We choose **reusable materials** for our floors. When you work with ExpoFloor you **avoid waste** and waste of materials. In this way we contribute to reducing the global waste problem.

Punctuality is our credo

ExpoFloor is **experienced with all the requirements of the exhibition and event industry**. Our practical knowledge is the result of twenty years of trial and error. We have experienced many build-up and pull-out moments, both successful and sometimes disappointing moments. This has helped us to develop into the efficient logistics organization that we are today. An organization focused on **speed and timing** with the highest possible service.

As an ExpoFloor customer you can therefore always rest assured:

- we punctually live up to the agreements we've made.
- and of course, every floor is delivered clean and with cover foil.

Quality guaranteed

ExpoFloor excels because of their efficient construction and the use of the best and most durable materials. Visually, each ExpoFloor scores with its impeccable finish in which utilities and wiring can also be installed invisibly.

In addition to the perfect look of the ExpoFloor, ExpoFloor is also unique because the floor has a high load capacity. Not only does the floor have to endure a lot during build-up and pull-out, but also during the fair because of the many visitors. The maximum load capacity of the ExpoFloor is 3,500 kg per m².

The ExpoFloor has been tested and approved to offer **optimal safety and stability**.

The ExpoFloor our four guarantees

ExpoFloor does more than supply, assemble, disassemble and collect raised floors. With our four core competences (24/7 available for service-punctuality-flexibility-quality) you can be sure of an impeccable cooperation. Together with you we make a success of your presentation!

1 ✓

24/7

Always on call and we always try to come up with a solution because for us the customer is and will always be king

2 ✓

Punctuality

We punctually live up to the agreements we've made, so your timing will not be compromised

3 ✓

Flexibility

We install the floor in accordance with the plans supplied, but should changes occur on site, we always try to resolve them together.

4 ✓

Quality

- All our floors are of a high quality.
- They are well maintained and cleaned before and after a rental period.
- Our floors are delivered orderly with cover foil.

Floors in an instant

The basis of the ExpoFloor is an aluminium frame system. The advantage of this system is the **speed and ease** of installation. ExpoFloor is flexible, obstacles are easy to build in, we have 90° angles, 45° angles, curved angles and much more. There are many options!

Because we use **adjustable footrests and lasers**, the ExpoFloor is always level. Do you need additional load capacity in order to place heavier items? That is possible! If you indicate this in advance, this can be achieved with a few accessories.

Height and Height under floor clearance
Floor height: min. 117mm / max. 159mm
Height under floor clearance: min. 53mm / max. 95mm

Installation is quick and easy

Ramps, skirting and floor displays

ExpoFloor has two types of floors; Basic and Melamine. You can have the Basic floor fitted with a floor covering of your choice, i.e. with carpet, laminate or vinyl. In addition, there is the Melamine floor. In this case you don't need additional floorcovering, because it has a professional, modern look of itself. It's available in a number of standard colours: such as white, zebrano, black, gray, wenge and oak. Other colours are also available on request.

white

oak

wenge

We have various skirting to provide the floors with a beautiful finish. Standard we use skirting which you simply can hook-in **without the need to use screws**. Standard these skirting are available in aluminium, white and black. Your own colour is possible on request (RAL number required). Other types of trims are possible. When needed please contact us.

Wheelchair ramps

Floor display cases (with or without light)

ExpoFloor also has various accessories, such as wheelchair ramps, glass panels, floor display cases (with or without light), all kinds of corner finishes.

Tailor-made wishes

Would you like a special colour or a personal touch? No problem. Contact us and we will work with you to find the best solution.

Formula for hire

FULL SERVICE FORMULA: nothing to worry. We take care of delivery, installation and dismantling of your floor.
